## Contractor Portal

### BEST PRACTICE PORTAL

The Tanner James/ILX best practice portal offers a range of fully accredited project, programme and IT service management training, aimed at a wide range of levels and needs.

The Portal provides an opportunity for Agencies/Organisations to develop their contractors capability through a time and cost-effective alternative to classroom training. It will also provide the Contractors with internationally recognised accreditation in best practice methodologies which are rapidly being mandated in many Government Departments and private sector organisations.

Contractors can access the appropriate course(s) according to the licence they have purchased and will have access for a 12 month period. They can continue to revisit their learning as often as they wish throughout the duration of their licence.

#### Benefits to Agency/Organisation

- Accredited Contractors
- Increased competency and consistency in best practice methodologies
- Zero effort and/or cost to Agency/Organisation
- Ability to monitor take-up by Contractors

#### Benefits to Contractors

- Discounted rates through increased/collective buying power
- Fully accredited training without loss of billable days/hours
- Industry recognised accreditation
- Single point of contact for training & exams

PRINCE2®, MSP® and ITIL™ are registered Marks of the Office of Government Commerce.

#### PRINCE2 Practitioner

**Overview:** A completely integrated multimedia training course covering all aspects of the PRINCE2 Project Management method, suitable for those wishing to train to **both Foundation and Practitioner** levels. Using voice-over and animation the course delivers the classroom equivalent of a 5 day training course, in an easy to use and convenient format.

#### PRINCE2 Foundation

**Overview:** A completely integrated multimedia training course covering all aspects of the PRINCE2 Project Management method, suitable for those wishing to train to Foundation. Using voice-over and animation the course delivers the classroom equivalent of a 2/3 day training course, in an easy to use and convenient format.

#### MSP Foundation

**Overview:** A completely integrated training course for those that wish to train to Foundation exam level.

Most people who operate in a project environment are actually planning and controlling many projects, all running in parallel and all sharing the same finite resources.

As a result, techniques and approaches are beginning to emerge to help people manage the more complicated multi-project environment more effectively and to cater for special problems which have to be addressed when managing programmes rather than single projects.

#### ITIL V3 Foundation

**Overview:** The course combines multiple voices, with animation, and interactive exercises, allowing learning at a time and place to suit each and every student.

### Training... Supporting Best Practice Skills Development and Skills Transfer
